ABOUT US

is more than a coffee company; is a journey through the picturesque coffee-growing region of San Ramón, Costa Rica. Founded in 2004 by a group of passionate coffee enthusiasts, our mission is simple but profound: to bring exceptional coffee directly to the world, without going through the middleman.

Inception, mission and vision

Our Company stands as a testament to the vision and unity of 570 coffee farmers from San Ramón. Additionally, it carries the legacy of a previous cooperative figure established in 1968.

As a private enterprise, our core mission is twofold: to artfully process and present our exclusive coffees to the world, while nurturing prosperity for both our dedicated farmers and the cherished community we call home.

Origins in Costa Rica:

Coffee sourcing from main

BEYOND THE MACROLOTS

Social Responsibility Program

Beyond the Macrolots...

"Discover our extraordinary women-led macrolot, a testament to their dedication and expertise. This unique coffee offers a rich and empowering taste experience, reflecting the remarkable qualities of its female producers. Embrace the essence of excellence with each sip."

Café Jóvenes (New Generation)

"Experience a coffee that's a symbol of generational change, nurtured by the energy and innovation of young producers.

This macrolot embodies the future of coffee, delivering a dynamic and vibrant flavor profile. Savor the taste of progress in every cup."

OUR MISSION

Points of sale

Café de Altura maintains its growth, expanding throughout the national territory, every day there are more establishments that sell our coffee.

Rainforest Certification

It certifies that our coffee is grown by producers who work together to create a world where people and nature thrive in harmony.

Essential Costa Rica

We have been evaluated and we comply with the five values of the Country Brand: excellence, sustainability, social progress, innovation and Costa Rican connection.

Social responsibility

A commitment to society for the benefit of sustainable development, the balance between economic growth and social well-being.

COFFEE Practices

The cornerstone of Starbucks' ethical sourcing approach to purchasing coffee is the Coffee and Farmers' Equity program.
